- **DANCER COMMENTS: DAFFODILS IN THE SUN BALL**

1. This was my first experience attending a Village Green Ball and I thoroughly enjoyed it. I had attended many Scottish Country Balls in the past but did not know what to expect at the VG Ball. I was so impressed with everything from the venue and meal, the wonderful music and dances, to all the beautiful attire worn by both men and women. What a great idea it was to have people compose and read aloud limericks which made for such an entertaining break time. It was truly a wonderful evening! Thank you!

2. I want to let you know how much I enjoyed our Daffodils in the Sun Ball. This was the first VGECD Ball I have attended and it was perfect. The costumes and limericks were exceptional. I appreciate all the hard work the committee did in the organization and the attention to detail which was applied. The dinner was delicious. The band was excellent – the video I took attests to that. But mostly, the dancing was fantastic; all our practices paid off. I only missed one dance in order to take a video. Once again, thank you to all: organizers, musicians, dancers. I'm already looking forward to the next one! Cheers!

3. We have a limerick for you about the Ball:

Although new to Country Dance
Attired in Shakespearean pants
I contrived not to fall
At the Daffodil Ball
It's two years till I get my next chance!

We had a wonderful time!
