

Round the Corner

Duple Minor

Music: Round the Corner

- A1: First corners set (not advancing); right hand turn half way; then dance behind partner and across the set to finish in original places.
- A2: Second corners set (not advancing); left hand turn half way; then dance behind partner and across the set to finish in original places.
- B1: First couple with nearer hands dances down the middle, turns toward each other and continues down the middle (dancing backwards). They dance up the middle, separate below the second couple and dance behind them to finish in original place.
- B2: Right hands across half way, fall back a double, dance forward a double and cross to own side of the dance (passing partner by the right)

Dance devised and music composed by Elizabeth Goossen for Mike and Robin Lynch as they begin their life on Quadra Island. It may seem far away but these days is really just "round the corner".
